

Cut along the outline.

Which can do you have?

A 30-second check before you order labels.

- 1 Print this page at 100% ("Actual size"). The square below must measure 1 inch.
- 2 Cut out the strip on the left.
- 3 Wrap it snugly around the middle of the can, printed side out, START first.
- 4 Where the strip comes back around to START, read the color band under it.

1 in test square. If it measures anything else, reprint with scaling turned off.

What the bands mean

Sleek can

12 oz sleek (tall and narrow, about 6.1 in). Our sleek wrap fits.
7.5 oz minis are as wide but only 4.1 in tall. Mini wraps are not offered yet.

Longneck bottle

12 oz longneck beer bottle. Use the longneck front label.

Standard can

About 4.8 in tall: 12 oz standard wrap.
About 6.2 in tall: 16 oz tallboy wrap.

No band?

Wine and liquor bottles vary too much for one wrap size. Use a front label, or the 3 in badge, which fits any can, bottle, cup or favor box.
